

INTUISKIN LAUNCHES ITS WEB SITE

*After the roll-out of its IOMA ESTHETICS Concept,
the MEMSCAP Group subsidiary launches its own web site*

Grenoble, France and Durham, North Carolina, April 4, 2008 – MEMSCAP (NYSE Euronext: MEMS), the leading provider of innovative solutions based on MEMS (micro-electro-mechanical systems) technology, today announces that its subsidiary IntuiSkin, the specialist of innovative solutions dedicated to scientific analysis of the skin and its specific care, has just launched its own web site.

Perfect complement to the business development of IntuiSkin and specifically its IOMA ESTHETICS Concept, the new web site www.intuiskin.com is divided in two platforms, one English and one French, and describes the company two main offerings for dermatology and esthetics.

IOMA ESTHETICS Concept, the drastically new approach to aesthetics, that the ‘Laboratoires IOMA’ of IntuiSkin have just unveiled, and that has just been awarded the Pierantoni innovation award, is also presented on the web site.
